

International Conference  
**Dark Matter, Hadron Physics and Fusion Physics**

*Capo Peloro Resort Hotel - Messina (Italy)*  
September 24-26, 2014

**Program**

Tuesday, September 23

17:30 – 21:30 **Registration** (Hotel Hall)

20:00 – 22:00 **Welcome Reception** (*Cariddi* Restaurant)

Wednesday, September 24

8:50 (10') **Welcome**

9:00 – 10:40 **Nuclear, Heavy Ion I**

- |                                    |  |
|------------------------------------|--|
| 9:00 (25'+5') G. Giardina          | <i>Influence of the structure and energy of reactants on the fusion process and related reaction products</i>      |
| 9:30 (25'+5') E. Kozulin           | <i>Fusion-fission and quasi-fission of superheavy systems with Z=110-116 formed in the 48-Ca induced reactions</i> |
| 10:00 (17'+3') L. Torrisi          | <i>D-D nuclear fusion processes induced in polyethylene by TW laser-generated plasma</i>                           |
| 10:20 (17'+3') S. Almaraz-Calderon | <i>C+C Fusion</i>  |

10:40-11:00 **Coffee break**

11:00 – 12:00 **Nuclear, Heavy Ion II**

- |                          |   |
|--------------------------|---|
| 11:00 (25'+5'') F. Volpe | <i>Cross-fertilization of magnetic confinement fusion research, nuclear and sub-nuclear physics and accelerator science</i> |
| 11:30 (25'+5') A. Badalà | <i>Hadronic resonances in ALICE</i>   |

12:00 – 12:30 **Dark Matter I**

- |                        |                                   |
|------------------------|-----------------------------------|
| 12:00 (25'+5') N. Toro | <i>New Forces and Dark Matter</i> |
|------------------------|-----------------------------------|

13:00-14:30 **Lunch break**

14:30 – 15:50 **Dark Matter I**

- |                            |   |
|----------------------------|---|
| 14:30 (25'+5') M. Schumann | <i>DM direct search: an overview</i>  |
| 15:00 (25'+5') P. Schuster | <i>Experimental Program to Search for GeV-Scale Dark Forces and Dark Matter</i> |
| 15:30 (17'+3') S. Giagu    | <i>LLP search at hadron colliders</i>   |

15:50 – 16:20 **Miscellaneous**

- |                             |   |
|-----------------------------|---|
| 15:50 (25'+5') G. Consolati | <i>Experiments with low-energy antimatter</i> |
|-----------------------------|---|

16:20-16:40 **Coffee Break**

16:40 – 18:00 **Miscellaneous**

- |                          |   |
|--------------------------|---|
| 16:40 (25'+5') P. Muller | <i>Searching for "New Physics`` with laser trapped atoms</i>  |
| 17:10 (17'+3') L. Zana   | <i>Neutron skin measurement with pion photoproduction at the MAMI electron beam facility</i>  |
| 17:30 (25'+5') P. Singh  | <i>Projectile - Mass asym. systematics for low energy incomplete fusion. Dependence of low energy incomplete fusion on projectile's <math>\alpha</math>-Q-value</i> |

Thursday, September 25

9:00 – 10:40 **Dark Matter II**

- |                              |   |
|------------------------------|---|
| 9:00 (17'+3') M. Raggi       | <i>The PADME experiment at LNF</i>  |
| 9:20 (17'+3') H. Merkel      | <i>Search for heavy photon at Mainz</i>   |
| 9:40 (17'+3') J. Beacham     | <i>APEX: The APrime EXperiment at Jlab</i>  |
| 10:00 (17'+3') M. De Napoli  | <i>The HPS experiment at JLab</i>   |
| 10:20 (17'+3') E. Goudzovski | <i>Search for the dark photon in neutral pion decays by the NA48/2 experiment</i> |

10:40-11.10 Coffee Break

11:10 – 12:30 **Dark Matter III**

- |                               |   |
|-------------------------------|---|
| 11:10 (17'+3') J. Pradler     | <i>Astrophysical probes and rare-event limits on dark photons</i>           |
| 11:30 (17'+3') F. Curciarello | <i>Search for dark forces at DAFNE</i>                                      |
| 11:50 (17'+3') A. Celentano   | <i>The BDX experiment</i>   |
| 12:10 (17'+3') G. Krnjaic     | <i>Dark matter search with accelerators and radioactive sources at LNGS</i> |

13:00-14.30 Lunch Break

14:30 – 16:10 **Hadron Spectroscopy I**

- |                               |   |
|-------------------------------|---|
| 14:30 (25'+5') A. Szczepaniak | <i>Hadron spectroscopy: today and tomorrow</i>                                    |
| 15:00 (25'+5') F. Krinner     | <i>Highlights from COMPASS in hadron spectroscopy</i>                             |
| 15:30 (17'+3') A. Filippi     | <i>The meson spectroscopy program at JLAB</i>                                     |
| 15:50 (17'+3') A. D'Angelo    | <i>The baryon spectroscopy program at JLAB</i>                                    |
| 16:10 (17'+3') V. Bellini     | <i>HCAL-J: an Hadron Calorimeter for Hall A SuperBigBite Spectrometer at JLAB</i> |

16:30-16:50 Coffee Break

16:50 – 18:45 **Hadron Spectroscopy II**

- |                            |   |
|----------------------------|---|
| 16:50 (25'+5') J. Pelaez   | <i>An overview of light scalar mesons</i> |
| 17:20 (17'+3') V. Mathieu  | <i>Phenomenology of light hadrons</i>     |
| 17:40 (20'+5') S. Eidelman | <i>Light mesons at LHCb</i>               |
| 18:05 (17'+3') X. Ji       | <i>Light mesons at BESIII</i>             |
| 18:25 (17'+3') B. Shwartz  | <i>Studies of light mesons at Belle</i>   |

20:00-22:00 Conference Dinner

Friday, September 26

9:00 – 11:00 **Hadron Spectroscopy III**

- |                             |  |
|-----------------------------|--|
| 9:00 (25'+5') M. Karliner   | <i>Theory of exotic quarkonia</i>          |
| 9:30 (25'+5') E. Santopinto | <i>Quark models in hadron spectroscopy</i> |
| 10:00 (17'+3') A. Guo       | <i>Exotic Charmonia at BESIII</i>          |
| 10:20 (17'+3') J. Ferretti  | <i>The spectrum of bottomonium</i>         |
| 10:40 (17'+3') A. Garmash   | <i>Bottomonium studies at Belle</i>        |

11:00-11:20 Coffee Break

11:20 – 13:20 **Hadron Spectroscopy IV**

- |                              |  |
|------------------------------|--|
| 11:20 (25'+5') R. Cardinale  | <i>Heavy mesons at LHCb</i>                                    |
| 11:50 (17'+3') A. Tiberio    | <i>Recent results from the LHCf experiment</i>                 |
| 12:10 (25'+5') I. Logashenko | <i>Measurement of hadronic cross sections in Novosibirsk</i>   |
| 12:40 (17'+3') V. De Leo     | <i>Measurement of the hadronic cross section at KLOE/KLOE2</i> |
| 13:00 (17'+3') A. Di Cicco   | <i>Status of the KLOE-2 experiment</i>                         |

13:20-14:40 Lunch Break

14:40 – 16:30 **Anomalous Phenomena**

- |                               |  |
|-------------------------------|--|
| 14:40 (25'+5') A. Anastasi    | <i>The Fermilab muon g-2 experiment</i>                            |
| 15:10 (25'+5') G. Piacentino  | <i>Status of mu2e and other LFV experiments (TBC)</i>              |
| 15:40 (25'+5') M. Hoferichter | <i>Hadronic light-by-light in muon g-2</i>                         |
| 16:10 (17'+3') G. Venanzoni   | <i>Measurement of <math>a_\mu^{had}</math> in spacelike region</i> |

16:30-16:50 Coffee Break

16:50 – 18:10 **Baryon spectroscopy and apparatus**

- |                              |  |
|------------------------------|--|
| 16:50 (17'+3') V. Kashevarov | <i>Experimental study of eta meson photoproduction reaction at MAMI</i>    |
| 17:10 (17'+3') F. Mammoliti  | <i>Characterization of large GEM module for the tracker at JLAB Hall A</i> |
| 17:30 (17'+3') G. Mandaglio  | <i>Eta and eta' beam asymmetry measurements at GRAAL</i>                   |
| 17:50 (17'+3') I. Strakovsky | <i>Radiative decay width of neutral non-strange baryons from PWA</i>       |

18:10 (10') **Concluding remarks**
