

# ***FIRST CIRCULAR***

## **INTERNATIONAL SYMPOSIUM**

### ***LEPTON AND HADRON PHYSICS AT MESON-FACTORIES***

Messina (Italy) , **October** 13-15, 2013

#### **Organized by:**

University of Messina

Fondazione Bonino-Pulejo (Messina)

#### **Scientific Program**

The Symposium will focus on the new projects and new lines of researches in the field of the Lepton and Hadron Physics that will be developed in the main Laboratories and Research Centres during the next 10 years. Therefore, the Symposium is open to contributions on various kinds of particle physics (also of astrophysical interest).

In the Symposium, the main emphasis will be on the discussion (from experimental and theoretical points of view) of high precision measurements and calculation useful to test the Standard Models, searches of new particles and interaction forces (dark force and dark matter), resonances by hadronic or electromagnetic interactions and their decay into scalar and vector mesons.

#### **General Information**

The Symposium will be held at the University of Messina, and it will consist of invited talks and selected oral presentations.

#### **Registration Fee**

The registration fee for a participant at the Symposium will be Euro 250 (including welcome reception, coffee and lunch breaks, Symposium dinner and publication of proceedings). The registration fee for an accompanying person will be Euro 150. Please take attention that the fee will be payed at Symposium desk in cash (euro).

## **Call for Contributions**

Participants are encouraged to present their recent works to the Symposium. For each contribution an abstract of one page (A4 format) has to be submitted before **June 30<sup>th</sup>, 2013**. It is necessary to submit the abstracts electronically by e-mail, sending a Postscript file for the text. Additional information will be found at the Conference Web-site (<http://newcleo.unime.it/Events/LHPMF2013>).

Participants will receive information on the acceptance of their contribution for oral presentation before **July 10<sup>nd</sup>, 2013**.

Invited talks and oral presentation of all participants will be published in an ISI international electronic journal.

## **Symposium Organization and Committees**

**Chairman :** Giorgio Giardina (Messina)

**Co-Chairman:** Simon Eidelman (Novosibirsk)

**Co-Chairman:** Graziano Venanzoni (LNF - Frascati)

**Co-Chairman:** Giuseppe Mandaglio (Messina)

**Scientific Secretaries:** Francesca Curciarello and Veronica De Leo (Messina)

## **International Advisory Committee**

- S. Albergo (University of Catania, Italy)
- J. Arends (University of Mainz, Germany)
- M. Battaglieri (INFN-Genova, Italy)
- V. Bellini (University of Catania, Italy)
- F. Bossi (INFN- LNF, Italy)
- H. Czyz (Katowice University, Poland)
- Kees de Jager (Newport, USA)
- A. Denig (University of Mainz, Germany)
- S. Eidelman (Budker Institute – Novosibirsk, Russia)
- G. Giardina (University of Messina, Italy)
- F. Klein (University of Bonn, Germany)
- W. Kluge (Karlsruhe University, Germany)
- J. Kuehn (Karlsruhe University, Germany)
- A. Kupsc (Uppsala University, Sweden)
- F. Jegerlehner (University of Berlin, Germany)
- G. Montagna (University of Pavia, Italy)

- D. Moricciani (INFN Sezione Roma 2, Italy)
- P. Pedroni (INFN – Pavia, Italy)
- P. Rossi (JLAB – Newport News, USA)
- A. Sandorfi (JLAB – Newport News, USA)
- C. Schaerf (University of “Roma Tor Vergata”, Italy)
- E. Tomasi-Gustafsson (CEA, France)
- L. Trentadue (University of Parma, Italy)
- G. Venanzoni (INFN-Frascati, Italy)
- C-Z. Yuan (IHEP, Beijing)

**Local Organizing Committee:** F. Curciarello, V. De Leo, G. Fazio , G. Giardina, G. Mandaglio, F. Mammoliti.

### **Topics:**

Hadron Spectroscopy

R measurements

Searches of new particles and interaction forces

Precision Tests of Standard Model

### **Deadlines**

- Abstract submission **June 30<sup>th</sup>, 2013**
- Registration for Hotel Accommodation, before **September 15<sup>th</sup>, 2013**

### **Contacts**

You can find web site of the Symposium <http://newcleo.unime.it/Events/LHPMF2013>
